

Introduction and Instructions

Introduction

The Vision 2020 Questionnaire is found in the following pages. The questions being asked provide a structure for gathering the information necessary to form our future vision and facilitate the planning to achieve this vision. The questionnaire can be answered in complete anonymity, if that is your desire, since we do not need the identity of the respondents to make the results valid. However, there are some questions that ask if you are willing to share your time and talent. In these circumstances we ask for your contact information if you are interested in volunteering and indicating this in your response, where it is requested (please note that this information is not linked to any other part of the survey). On the other hand if you are willing to volunteer and not interested in providing your contact information in this survey, we ask that you call the parish office to indicate your desire to volunteer for a ministry. In this case, you should indicate your interest but leave the contact information off the questionnaire. Thank you for helping us with this extremely important project.

Demographic Information

To help us characterize the results of the Vision Questionnaire, we would like some demographic information from the respondents. This information will enable us to analyze and determine the direction and timeline for the implementation of our Vision 2020. To help us in the analysis of the data, we will ask you to identify your age group on each page of the questionnaire by answering this question at the end of each set of questions.
